COMMUNITIES WORKING TOGETHER	
<b>Project Description</b>	<p>“Communities Working Together” will support 1,500 participants who have multiple and complex needs, to overcome the barriers they face in entering the labour market or in taking up meaningful training opportunities. The project will test innovative place-based approaches focused on Cornwall’s most deprived neighbourhoods as identified by the Index of Multiple Deprivation. We will develop eight local partnerships, each made up of voluntary, community, public and private sector organisations. Each partnership will co-ordinate the local delivery of integrated programmes of support for individuals and families based on a strong understanding of the local social and economic environment. The project recognises that for many this will be a long and challenging journey and participants will need significant support, including one-to-one mentoring. Each local partnership will also work to develop the resilience of the deprived neighbourhoods, strengthening their ability to support members of their community.</p>
<b>Delivery</b>	<p>Working closely with the Council who are providing match funding, to support their place-based programmes.</p> <p><b>Partners</b></p> <ul style="list-style-type: none"> <li>• Cornwall Neighbourhoods for Change</li> <li>• Urban Biodiversity</li> <li>• Cornwall Marine Network</li> <li>• Cornwall Apprenticeship Agency</li> <li>• Young People Cornwall</li> <li>• Volunteer Cornwall</li> <li>• Treyla</li> </ul>

## SUSTAINABLE LIVES

### Project Description

This project aims to help people take gentle steps back into work or training, while building friendships and connections with people in their community. Based at Newquay Community Orchard, the project offers hands on experience in gardening and growing, prepping and cooking produce, outdoor construction, crafts, conservation, environmental knowledge, health awareness, personal development and much more. The participants are being supported on a 1:1 basis by a change coach and take part in both orchard activities and skill share sessions – practical sessions in activities such as yoga, planting, mindfulness, recycling, life skills, walks, trips, etc.

We are keeping our community fed by providing free veggie boxes made up of freshly picked produce from our Community Grow Space. All of the produce we grow is distributed firstly amongst our volunteers and then into the wider community. Volunteering is on a booked rota system with all Covid-19 safety protocols carefully observed and adhered to.

Covid-19: As a remote option where Orchard volunteering isn't possible due to either lockdown restrictions or health/shielding concerns, we are also providing volunteers with compost and seed kits that come with full instructions and links to how-to videos to help people grow and cook in their homes. These can be collected from the Orchard (at a safe distance) by prior arrangement. Online skill shares are also shared in video format and a change coach remains available for remote support, advice and signposting.

We do hold a small pot of crisis funding to distribute to people in crisis which is distributed on a referral basis. Please get in touch if you wish to refer someone and we will contact you to discuss.

<b>Delivery</b>	Urban Biodiversity (Newquay Orchard), with the Learning Partner as lead contractor.
<b>Who is Eligible</b>	Unemployed or inactive aged over 16+.

### WHO DARES WORKS

<b>Project Description</b>	<p>Who Dares Works brings together a partnership of Cornwall based social enterprises and organisations to help people in West Cornwall and the Isles of Scilly who need the most support to connect or reconnect with employment, education or training. The partnership builds on the unique strengths of each organisation working collaboratively to help participants to help themselves – wherever possible through helping others. The partnership prides itself on its collaborative working which includes 1-2-1 mentoring, specialist support, work related activity, work ready clubs and community clubs. At the heart of the project is the Active Plus course. Delivered by military veterans from Active Plus, the course has been designed to build confidence, motivation and self-belief to enable participants to move forward. Alongside attending the course, participants will work with their mentor to determine their long-term goal(s) and achieve them by tapping in to a range of specialist support and a host of work-related activities, from volunteering to community projects, taster days to work experience and everything in between. For participants moving on from the project, the support doesn't have to stop there. In-work support is offered to help individuals with their transition into employment.</p> <p>All of the above focuses on the two broader priority themes of participation in work and skills for the potential workforce.</p>

FOCUS (CLLD FUNDED)	
<b>Project Description</b>	The intent of the Focus programme is to inspire individuals who have an interest in self-employment to look at this as a real possibility for them. This is a PRE-prestart programme which lays the foundations for potential entrepreneurs by unleashing the personal skills and tools they can fall back on in their start up journey. Self-belief, resilience, confidence, a willingness to ask for help, to learn, to train, to manage time and money – these are all valuable skills that can underpin successful business start-up. But they might discover that self-employment is not the best outlet for their skills and be inspired to seek the right job, gain further training, or move into education.
<b>Delivery</b>	Outset Start-up Support cic
